Conductor
Engineer

<div align="center">

Situation 6
Delivering an Ordered Car
Non-Perishable Freight

</div>

Prototype Equivalent

At a time negotiated with the Freight Agent, a wayfreight delivers an empty car the customer has ordered for loading with an outgoing shipment.

S&P Implementation

The Conductor Engineer of a wayfreight arrives at an industry with a car card containing a car order.
The car is spotted on the industry siding and the car card/car order is put in the Setout Box.

When all work at this industry is completed, the Freight Agent moves any cards in the Hold Box to the Pickup Box and any cards in the Setout Box to the Hold Box.

The train is released to move to the next industry.

Situation ID Triggers

Conductor/Engineer has a car card/car order in hand when arriving at an industry.
8 card boxes identifying this as a "ship and receive" industry
